Split Case Design Guard

Recommendations:

- Split Case Design guard was original created to cover the mechanical seal or packing glands on double suction pumps. Designed with a solid HDPE panel next to the bearing with a panel extending over the packing gland or mechanical seal.

Descriptions:

- Customer can custom cut and fit HDPE during installation or can be specifically cut for each application.
- Slotted cover is optional for heat dissipation or limited visual inspection.
- Guard can be secured to guard mounting bracket by drilling and taping the bearing housing or attaching with a large screw clamp required to meet OSHA compliant standards.
