## UniClear Seal Guard

### Recommendations:

- UniClear Seal Guards were specifically designed to protect employees from rotating shaft when exposed near the packing gland or mechanical seal.

### Options:

- UniClear polycarbonate shield can be replaced with orange/yellow solid or slotted polyethylene when chemically incompatible.
- High density polyethylene frame utilized stainless steel fasteners.
- Originally created for Durco, Goulds, Sulzer and other ANSI pumps but not can be customized for other similar applications.

### Descriptions:

- Adapter frame is a 2-piece design to allow easier installation.
- UniClear cover slips under the pump adapter frame and the attached ribs lock into the adapter frame.
- The UniClear covers 12 o'clock joint can be relocated when needed for seal flush lines plans and noted.
